

Meet our Sponsors

As a club, we are very fortunate to be supported by so many fantastic sponsors who allow the club to carry the participation, development and promotion of excellence in a fun, engaging environment for players of all ages to the sport of hockey.

Our sponsors support our local men, ladies and junior teams to pursue their passion for hockey and assist them in discovering, developing and progressing as a player and as a person.

A big thank you to all the following sponsors on behalf of everyone at Carmarthen Athletic Hockey Club.

ITH Construction Limited is a family owned and operated building business based in Templeton, Narberth. Our work is generated through repeat business with customers with whom we have developed a long-term relationship and also through referrals from existing customers.

Our business is based upon building a relationship of openness and trust with our customers, where we take time to understand your needs and priorities and help you make sense of the choices and cost implications of those choices. We then apply our experience and expertise to turn your vision into a high-quality finished product.

We have a dedicated team who have been working together for many years, who have experience in all aspects of building work including groundworks, bricklaying and stonework, electrical, plumbing, first and second fix, plastering, bathroom and kitchen installation, painting and decorating services. We also offer garden landscaping, driveway and road installation services.

We have inhouse land surveying and quantity surveying expertise and project management expertise.

We specialise in small high quality housing developments and renovations using both traditional and modern building techniques, building homes that make sense in the community and space they occupy.

We are one of the leading specialists in leisure and theme park development in Pembrokeshire, with many years' experiences of developing infrastructure and holiday and amenity accommodation in many of the areas well-known local leisure attractions.

We also have a team which undertakes small civil engineering projects for both public and private customers.
